

Accessing AASDLOGON Wireless other mobile devices

While we wish we could provide instructions for every device on the market, it is unfortunately impossible! This is the “general” set of instructions that explains what you need to do to connect to the **aasdlogon** wireless network.

Step 1): Access your device’s wireless settings and connect to the **aasdlogon** wireless network

Step 2): When you are prompted for a password, use the name of the network **aasdlogon**

Step 3): Open a web browser of some type. You will automatically be redirected to the grey login screen.

App
AASD

Guests: Please use the wireless AASDGUEST network
Staff/Students: Login with your username and password

Name

Password

Login

It may take up to 20 seconds for the registration process to complete.
Logging in indicates you have read and accepted the Acceptable Use Policy

Step 4): Type in your username and password (same login you use on school computers)

Step 5): Tap / click on Login

Step 6): After about 20 - 40 seconds your device should show your homepage. This means you are now ready to use the device on the AASD wireless network.
